## FOREWORD

*Back to the Future* was originally released in 1985 and became that year's most popular film, spawning two successful sequels and a truly dedicated fan base. The franchise's popularity has only increased over time, elevating the Time Machine into one of the most popular and iconic vehicles in movie history. Therefore, Universal Studios, Amblin Entertainment and the *Back to the Future* filmmakers are delighted to have partnered with the LEGO® team in the creation of this fantastic kit. In the movie, Doc Brown spent almost 30 years and his entire family fortune to build his Time Machine. Fortunately, you'll be able to build this LEGO model in significantly less time and with far less expense – although your completed version will be unable to travel through time!

This is the second LEGO Time Machine, and it's bigger, better and more detailed than the 2014 version. A key factor in its brilliance is that the Design Team members are all enthusiastic fans and wanted to "get it right." As you'll discover, they've succeeded with flying colors. Whether you're a LEGO enthusiast or fan of the films, this Time Machine will be a proud addition to your collection.

Happy building!

## PRÉSENTATION

Film le plus populaire de l'année 1985, *Retour vers le futur* est encore à ce jour suivi par une base d'amateurs très dévoués. Son succès a donné lieu à deux suites. Grâce à la popularité toujours grandissante de la franchise, la machine à voyager dans le temps est devenue l'un des véhicules les plus emblématiques de l'histoire du cinéma. C'est pourquoi Universal Studios, Amblin Entertainment et les réalisateurs de *Retour vers le futur* sont ravis de s'être associés à l'équipe LEGO® afin de créer ce fantastique ensemble. Dans le film, Doc Brown a consacré près de 30 ans à la construction de sa machine à voyager dans le temps, qui lui a également coûté l'entièreté de sa fortune familiale. Ce modèle LEGO vous coûtera heureusement beaucoup moins de temps et d'argent à construire, mais il ne vous permettra pas de voyager dans le temps !

Cette deuxième version de la machine à voyager dans le temps LEGO est plus grande, plus belle et plus détaillée que celle de 2014. Cette réussite est due au fait que les membres de l'équipe de conception sont tous des amateurs passionnés qui ne visaient rien de moins que la perfection. Comme vous allez le découvrir, ils ont réalisé ce défi avec brio. Que vous soyez un passionné de LEGO ou un amateur des films, cette machine à voyager dans le temps fera un superbe ajout à votre collection.

Bonne construction !

## PRESENTACIÓN

Estrenada en 1985, *Volver al futuro* se convirtió en la película más vista de aquel año y acabó generando dos exitosas secuelas y multitud de apasionados seguidores. La popularidad de la franquicia no ha dejado de crecer desde entonces y la máquina del tiempo se ha consolidado como uno de los vehículos más famosos e inconfundibles de la historia del cine. Universal Studios, Amblin Entertainment y los creadores de *Volver al futuro* estamos encantados de habernos asociado con el equipo de LEGO® para traer al presente este fantástico kit. En la cinta, el Doc Brown nos cuenta que dedicó casi 30 años de su vida y toda la fortuna de su familia para desarrollar su máquina del tiempo. Por suerte, podrás construir este modelo LEGO invirtiendo muchísimo menos tiempo y dinero, aunque tu versión terminada no será capaz de viajar en el tiempo!

Esta es la segunda máquina del tiempo LEGO, y es más grande, mejor y más detallada que la de 2014. Un factor decisivo de su genialidad es el empeño de los miembros del equipo de diseño, incondicionales absolutos de la película, en que saliera perfecta. Como descubrirás, el resultado merece una mención honorífica. Si eres un entusiasta de LEGO o un fan de la trilogía, estarás orgulloso de que esta máquina del tiempo forme parte de tu colección.

¡Feliz construcción!

The Flux Capacitor was the core component of the Time Machine, and was, according to Doc "what makes time travel possible."

Le convecteur temporel est l'élément de la machine à voyager dans le temps qui, selon Doc, rend le voyage dans le temps possible.

El condensador de flujos es el componente fundamental de la máquina del tiempo y, según el Doc, "lo que hace posible viajar por el tiempo".

The Mr. Fusion Home Energy Reactor converted household waste to power the Time Machine's Flux Capacitor using nuclear fusion, allowing the Time Machine to generate the required 1.21 gigawatts.

Le réacteur Mr. Fusion convertit les déchets en énergie, permettant à la machine à voyager dans le temps de générer les 1,21 gigawatts nécessaires pour alimenter son convecteur temporel.

El generador Mr. Fusion Home Energy Reactor transforma los desechos domésticos en energía para alimentar el condensador de flujos de la máquina del tiempo y, mediante una reacción nuclear, generar los 1,21 GW que necesita.

The Time Machine requires 1.21 gigawatts of power and needs to travel 88 mph (142 km/h) to initiate time travel.

La machine à voyager dans le temps nécessite 1,21 gigawatts d'énergie et doit franchir la barre des 88 mi/h (142 km/h) pour initier le voyage dans le temps.

La máquina del tiempo requiere 1,21 GW de potencia y debe alcanzar 88 mph (142 km/h) para iniciar el viaje en el tiempo.

## TIMELESS ICON

With its perfect mixture of comedy, action and science fiction, *Back to the Future* was the most successful film of 1985, and remains one of Universal Studios' biggest blockbusters ever. Doc Brown's futuristic Time Machine played a starring role in the original movie and returned in both the 1989 and 1990 sequels. With catchwords like "Flux Capacitor" and "space-time continuum" entering everyday language, it's no surprise that the US Library of Congress added the original movie to its National Film Register as one of 25 elite films deemed to have enduring importance to popular American culture.

## UNE ICÔNE INTEMPORELLE ÍCONO INTEMPORAL

Avec sa combinaison parfaite de comédie, d'action et de science-fiction, *Retour vers le futur* fut le plus grand succès cinématographique de 1985 et reste l'un des plus grands succès de Universal Studios. La machine à voyager dans le temps de Doc Brown joue un rôle important dans le film original et revient dans les suites sorties en 1989 et en 1990. Il n'est pas surprenant que la bibliothèque du Congrès américain ait ajouté le film original à son registre des films américains ayant une importance durable dans la culture populaire américaine, le film ayant d'ailleurs introduit dans le langage courant des mots comme « convecteur temporel » et « continuum espace-temps ».

Mezcla perfecta de comedia, acción y ciencia ficción, *Volver al futuro* se convirtió el mayor acontecimiento cinematográfico de 1985 y es aún uno de los grandes éxitos de taquilla de Universal Studios. La futurista máquina del tiempo del Doc Brown jugó un papel protagónico en el primer filme y regresó en las secuelas de 1989 y 1990. Expresiones como *condensador de flujos* y *continuidad del espacio-tiempo* han pasado a formar parte del lenguaje cotidiano, de manera que no es de sorprender que la Biblioteca del Congreso de los EE. UU. agregara la copia original a su Registro Nacional de Cine, reconociéndola así como una de las 25 películas que se considera han influido notablemente en la cultura popular estadounidense.

## FROM THE DESIGN TEAM

I think I was just at the right age to get hooked as a super-fan when the movies came out. I remember I unscrewed the wheels off my skateboard in an attempt to recreate the hoverboard! One of the most challenging features on the model was the hovering wheels function. We could have just made the wheels rebuildable in a different position, but we wanted to have some of that surprise factor we all remember when we first saw the movie. We went through about five different designs for this function before landing on this one. I feel like the movies captured the essence of everything that was regarded as cool at the time, and I feel so fortunate to have gotten the opportunity to design a model which influenced my childhood.

## UN MOT DE L'ÉQUIPE DE CONCEPTION

Je pense que j'avais l'âge parfait pour tomber en amour avec les films à leur sortie. Je me souviens avoir dévissé les roulettes de ma planche pour tenter de recréer la planche volante ! Un des plus grands défis a été de reproduire la fonction des roues en mode de vol. Nous aurions pu simplement permettre la reconstruction des roues dans une autre position, mais nous voulions recréer l'émerveillement que nous avons tous ressenti la première fois que nous avons vu le film. Nous avons étudié environ cinq concepts différents pour cette fonction avant de trouver le bon. Je crois que les films ont su capturer l'essence de tout ce qui était en vogue à l'époque, et j'apprécie énormément d'avoir eu la chance de concevoir un modèle de quelque chose qui a influencé mon enfance.

## IMPRESIONES DEL EQUIPO DE DISEÑO

Creo que me enganché a las películas y me hice superfan porque, cuando salieron, tenía justo la edad adecuada. ¡Me acuerdo de que desarmé las ruedas de mi patineta para intentar recrear la supertabla! Uno de los mayores desafíos que tuvimos que resolver al desarrollar el modelo fue el detalle de las ruedas abatibles de la versión voladora. Podríamos haber creado dos posiciones para embonarlas, pero queríamos provocar de algún modo el factor sorpresa que todos recordamos de cuando vimos la película por primera vez. Diseñamos unas cinco opciones diferentes para esta función antes de decidimos por la actual. En mi opinión, las películas capturaban la esencia de todo lo que se consideraba moderno en la época, y me siento muy afortunado de haber tenido la oportunidad de diseñar un modelo que marcó mi infancia.

Additionally, a lightweight fiberglass car was  
constructed for the flying scenes, which could be hung
