THE DARK SIDE OF LEGO® STAR WARS™

EN We've been making *Star Wars*™ models since 1999 – awesome starships, minifigures to play with and collect, UCS display sets – and the dark side has been part of our range since the start. So much so that, in our launch year, Darth Maul himself made two separate LEGO® *Star Wars* appearances – in the 7101 'Lightsaber™' Duel and the 7151 Sith Infiltrator™ sets. You could say we haven't picked a side.

LE CÔTÉ OSCUR DE LEGO® STAR WARS™

FR Nous fabriquons des modèles *Star Wars*™ depuis 1999 : des vaisseaux spatiaux impressionnants aux figurines pour jouer et à collectionner, en passant par les ensembles à exposer UCS... Le côté obscur fait partie de notre gamme depuis le début. Tant et si bien que, l'année de notre lancement, Darth Maul en personne s'est invité deux fois dans la gamme LEGO® *Star Wars* avec les ensembles 7101 Lightsaber™ Duel et 7151 Sith Infiltrator™. Vous pensez peut-être que nous n'avons pas choisi notre camp.

EL LADO OSCURO DE LEGO® STAR WARS™

ES Empezamos a fabricar modelos *Star Wars*™ en 1999 (increíbles naves espaciales, minifiguras para jugar y coleccionar, sets UCS de exhibición, etc.) y el lado oscuro forma parte de la gama desde el principio. Tanto es así que, en el año de lanzamiento, el propio Darth Maul apareció en dos sets LEGO® *Star Wars* diferentes: Lightsaber™ Duel (7101) y Sith Infiltrator™ (7151). Se podría decir que no hemos elegido bando todavía.

Exclusive art you've never seen before

EN We set out to create something truly unique and different from anything else out there, so we based this model on brand-new artwork created especially for LEGO® Art. The original drawings were all in black and white, and showed the three characters in a variety of poses and croppings. We worked closely with them to refine our selection, and added in the coloring and the lighting, as well as the Lightsaber elements that really make the artwork stand out. Essentially, we've created three exclusive, never-before-seen images that fans can build and display.

Kitt and Christopher

L'art comme vous ne l'aviez jamais vu

FR Nous souhaitons créer quelque chose de vraiment unique. C'est pourquoi ce modèle a été réalisé à partir d'illustrations créées spécialement pour LEGO® Art. Les dessins originaux étaient en noir et blanc et les trois personnages étaient représentés selon différentes poses et divers cadrages. Nous avons travaillé en étroite collaboration avec l'équipe pour affiner notre sélection et avons ajouté de la couleur et de la luminosité ainsi que les éléments du sabre laser pour que l'œuvre soit vraiment unique. Ainsi, nous avons créé trois images exclusives que les fans peuvent construire et exposer.

Kitt et Christopher

Una exclusiva obra de arte que jamás habías visto

ES Nos propusimos crear algo verdaderamente único y diferente de todo lo que existe, así que basamos este modelo en piezas artísticas completamente nuevas y concebidas especialmente para LEGO® Art. Los bocetos originales eran en blanco y negro, y mostraban a los tres personajes en diferentes posiciones y con distintos encuadres. Trabajamos en estrecha colaboración con los creadores para definir nuestra selección y agregamos el color, la iluminación y los sables de luz, que contribuyen en buena medida a destacar la obra de arte. Básicamente, creamos tres imágenes exclusivas e inéditas que los fans pueden construir y exhibir.

DARTH MAUL

EN We made five different versions of Darth Maul before we finally captured the look that we wanted to get out of him. Kylo Ren wears a helmet and Darth Vader is looking 'off camera,' but Maul stares right at you. We're quite proud of the way his eyes capture the menace of the character. We found the right amount of cropping that brings you close to his face, and the effect is quite unsettling – and cool.

FR Nous avons créé cinq versions différentes de Darth Maul avant d'obtenir l'image souhaitée. Kylo Ren porte un casque, Darth Vader ne regarde pas la caméra, mais Maul regarde le spectateur droit dans les yeux. Nous sommes très fiers de l'aspect menaçant des yeux du personnage. Nous avons rogné la photo pour que son visage soit suffisamment proche du spectateur. Le résultat est plutôt troublant et très réussi.

Kitt et Christopher

ES Hicimos cinco versiones diferentes de Darth Maul antes de lograr por fin el efecto que buscábamos.

Kylo Ren lleva un casco y Darth Vader mira en otra dirección, pero Maul observa directamente al espectador. Estamos muy orgullosos del modo en que la mirada captura el peligro que representa el personaje. Encontramos un encuadre tal que te acerca a su rostro y provoca un efecto tan inquietante como espectacular.

DARTH VADER

EN Darth Vader was our biggest design challenge, primarily because he's such an iconic character. We worked closely with Lucasfilm, played around with different poses and the Lightsaber's reflection, and went back to the drawing board several times. We kept looking at the design and thinking "still not quite right". Capturing his half-profile pose with LEGO® elements was hard work, but we're really pleased with the result.

Kitt and Christopher

FR Darth Vader a été le personnage le plus complexe à réaliser, notamment parce qu'il est vraiment emblématique. Nous avons travaillé en étroite collaboration avec Lucasfilm, essayé différentes poses, joué sur la lumière du sabre laser. Cependant, après être revenus plusieurs fois sur la planche à dessin, nous n'étions toujours pas satisfaits du résultat. Cela n'a pas été facile d'obtenir cette pose à demi-profil avec les éléments LEGO®, mais maintenant, nous sommes vraiment satisfaits du résultat.

Kitt et Christopher

ES Darth Vader fue el personaje que más nos costó diseñar, sobre todo por su inconfundible carácter. Trabajamos en estrecha colaboración con Lucasfilm, jugamos con diferentes poses y el reflejo del sable de luz, y visitamos varias veces la mesa de dibujo. Contemplábamos el diseño una y otra vez pensando que "le faltaba algo". Capturar ese medio perfil con elementos LEGO® fue un trabajo complicado, pero estamos muy satisfechos con el resultado.

KYLO REN

EN We had to get very close to Kylo Ren's face in order to make his helmet shine – otherwise you wouldn't be able to distinguish the stripes of light that run through it when you build it with LEGO® elements. The final design is a pretty tight close-up, so fans can build the shadowy areas with black pieces, and all the contrasting light elements can stand out.

Kitt and Christopher

FR Il nous a fallu prendre un plan rapproché de la tête de Kylo Ren pour faire briller son casque. Sinon, nous ne pourrions pas distinguer les bandes de lumière qui le traversent lors de la construction avec les éléments LEGO®. La conception finale est un gros plan assez serré, de sorte que les fans peuvent construire les zones d'ombre avec des pièces noires et tous les éléments lumineux contrastants peuvent ressortir.

Kitt et Christopher

ES Tuvimos que acercarnos mucho al rostro de Kylo Ren para que su casco brillara; de lo contrario, no podrían distinguirse las franjas de luz que lo recorren al construirlo con elementos LEGO®. El diseño final es un primer plano muy ajustado, lo que permite a los fans construir las zonas de sombra con piezas negras y favorece el contraste con los elementos que representan la luz.
