# HEAD OF OPERATIONS

***“All troops will debark for ground assault. Prepare to target the main generator.”***

- General Veers

The head of the AT-AT walker serves as the cockpit and command center for General Veers and several other minifigure characters. Full of details inside and out like lamps, firing controls, periscope display, a weapons system with rotating medium blaster cannons and Class II heavy laser cannons that recoil when ‘fired,’ it’s the operational brains of any Imperial ground attack.

The challenge here was to replicate the design faithfully while allowing the neck to move like the movie model. Standard cross axles were not stable or flexible enough, but Henrik and Markus discovered that crane arm elements (long cross axles with LEGO® Technic™ holes at each end) were just pliable enough to achieve the desired snake-like movement effect, and strong enough to hold the weight of the head.

## LA TÊTE DES OPÉRATIONS

La tête du marcheur TB-TT sert d'habitable et de centre de commandement pour le général Veers et plusieurs autres personnages. Regorgeant de détails tels que les lumières, les conduites de tir, le périscope et le système d'armement avec des canons blasters moyens rotatifs et des canons laser lourds de classe II qui reculent lorsqu'ils « tirent », le marcheur est à la tête de toute attaque impériale au sol.

Le défi ici était de reproduire fidèlement la forme tout en permettant au cou de bouger comme dans le film. Les essieux transversaux standard n'étaient pas assez stables ou flexibles, mais Henrik et Markus ont découvert que les éléments de bras de grue (de longs essieux transversaux avec des trous LEGO® Technic™ à chaque extrémité) étaient juste assez malléables pour obtenir l'effet d'ondulation souhaité, et assez solides pour supporter le poids de la tête.

**« Toutes les troupes débarquent pour l'attaque au sol. Préparez-vous à viser le générateur principal. »**

## EL CEREBRO DE LA OPERACIÓN

La cabeza del caminante AT-AT funciona como cabina y centro de comando para el General Veers y otros personajes en escala de minifigura. Llena de detalles por dentro y por fuera, como lámparas, controles de disparo, pantalla periscópica, un sistema de armamento con cañones bláster rotatorios medianos y cañones láser pesados Clase II con efecto de retroceso al “dispararse”, es el cerebro operativo de cualquier ataque de tierra imperial.

Aquí, el desafío consistió en replicar fielmente el diseño permitiendo a la vez que el cuello se moviera como en el modelo de la película. Los ejes transversales estándar no eran lo suficientemente estables ni flexibles, pero Henrik y Markus descubrieron que los elementos de los brazos de grúa (ejes transversales largos con orificios LEGO® Technic™ en los extremos) tenían la elasticidad adecuada para lograr el efecto de movimiento serpenteante deseado y la fuerza necesaria para sostener el peso de la cabeza.

**“Que las tropas desembarquen para el asalto. Prepárense para atacar el generador principal”.**

## UN PASEO POR EL LADO OSCURO

Con el paso de los años, hemos visto aparecer caminantes AT-AT LEGO® *Star Wars* de todos los tamaños, desde miniproyectos hasta enormes modelos coleccionables, y todos merecen un lugar en nuestro salón de la fama por mérito propio. Cada nuevo caminante nos ha hecho dar nuevos pasos y empujar los límites de nuestras técnicas de construcción y diseño hasta llegar al descomunal modelo que estás construyendo justo ahora. Más detalles que nunca. Más funciones que nunca.

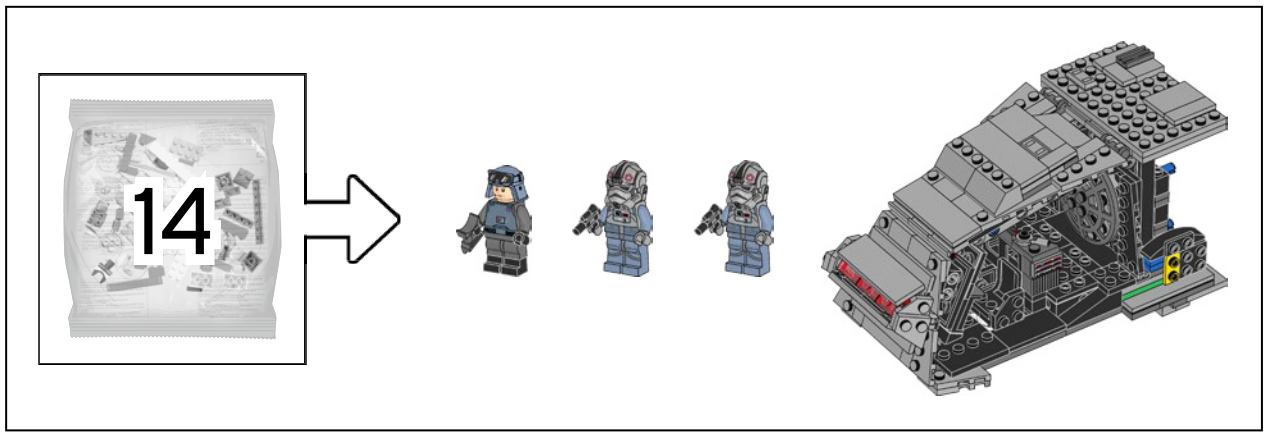

Un indiscutible campeón de peso completo entre los modelos de exhibición LEGO *Star Wars*. Prepárate para dar un paseo por el lado oscuro.
